

Woodlands Evangelical Church

Instructions for Live-Streaming

Hi everyone

We are planning to have a virtual Sunday service each week, so that we continue to have a sense of being together as the body of Christ. We will only have one live stream this week at 10.30am for both the morning and afternoon congregations but this may change in future weeks.

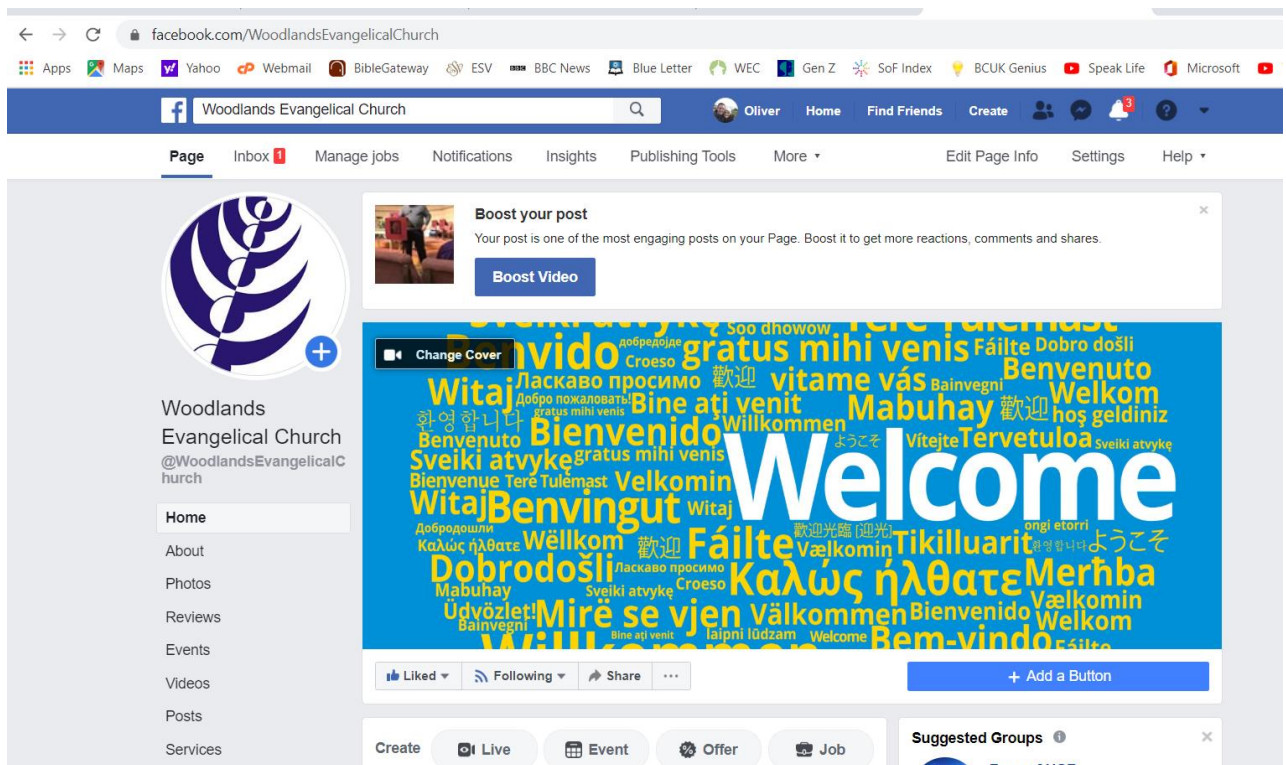

This week, we are planning to stream live through Facebook, but are also considering other options for future weeks. You do not need a Facebook account to view the live-stream.

It's relatively easy.

1. Go to www.woodlandschurch.org.uk

2. Click on the Blue button which says 'Find us on Facebook'.

3. You will then be redirected to the Church Facebook page.

4. Scroll down until you find the 'live' video. It will be obvious on the day. If you try and do this in good time, there will be an 'event' set up, and you'll see a 3-minute countdown before the event.

5. At 10:30am we will pause for a few minutes, while live to let people find us and join in. Please be patient (and pray!) while we wait for those who are less familiar with Facebook to find the live video.

6. Things to remember...

- Have your Bible with you.
- Have the sound on your device turned up.
- Be comfortable, and even sit with a cuppa.
- Remember that many others in God's family are meeting with us at this time.

7. If you are joining from a mobile device or tablet, the display might look different.

8. Please try out these instructions beforehand. You should find a pre-recorded video of Oli!
